Experience

Freelance Wordpress Developer • Garden Portals *- Jul 2024 - current*
Design and develop a custom WordPress blog with engaging content and user-friendly features.

Freelance Wordpress Developer • Aquele Lugar Feliz *- Dec 2023 - current*
Crafting engaging and informative content, ensuring smooth, up-to-date WordPress site operations using Elementor expertise, optimizing for SEO, boosting visibility, tracking performance, and creating a positive online space for our audience.

Front End Intern • Cambridge Judge Business School *- Aug 2023 to Oct 2023*
Worked on the migration of the CJBS annual leave and sickness system from SharePoint to React and TypeScript, rebuilding the system's layouts and styles. This transformation enhanced the user experience, making it more intuitive, while also addressing and resolving issues identified by key users.

Education

FAM University, Undergraduate, System Analysis and Development - *In Progress*
• Computer Design, Software Engineering, Programming and Applications Development, Data Structures, Object Oriented Programming, Project Management, Database

Frontend Intensive Bootcamp at Epicode - *February 2023*
